EDITORIAL

Dear CBSM,

Thank you for everything! Some of us have been part of this institution since we were toddlers; now our path through this school has come to an end. Now our new life is about to begin, we will take new paths and step into adulthood, but we will never forget the memories we made at CBSM. We will never forget all the values, the teachers, and classmates that were part of most of our lives.

Most people say senior year is the easiest, but we have to admit it was not as easy as it seems. Our last year of High School included the AP exam, an extended essay, ICFES, IELTS, school activities we had to organize, and all the assignments we had to send for class.

However, with perseverance and constancy, we were able to accomplish everything we set out to do. Now the day we have always looked forward to is finally here, once this yearbook is published we will no longer be seniors, but alumni. Still, we will always be a part of CBSM.

We want to thank all our classmates because helping one another was also key for our passage through school, it did not matter if what we needed help with was school or life-related, we were always there for each other. We want to thank all the educators that supported us and taught us with patience and dedication. Finally, we would like to thank our parents for making us the people we are today and for giving us your unconditional love.

This yearbook is the representation of our last year at school, but it is also a collection of all the laughs that we shared and the friendships we created throughout the years. We selected pictures of different school years and activities we wish to never forget; Carnivals, pajama days, Christmases, bake sales, our Last First Day, etc. We hope you enjoy looking at these pictures, reading these essays, and remembering some of the most amazing years of our lives as much as we enjoyed choosing them for the yearbook.

Sincerely,

The Editors.

WORDS FROM MS. ADRIANA

My dear 2022 Seniors,

The year 21-22 confronted us with a “new normal.” Returning to school was challenging for all of us. You, as students, found a school that was anxious to have you back in the classrooms but also afraid of what we were going to find.

You, my dear children, taught us that no matter how difficult or challenging the return was, we could make it work for all of us. Your joy and willingness to show everyone that you were ready and open to face that challenge was incredible.

Thank you very much for returning our faith in what we do. Thank you for being a model of resilience, commitment, endurance, and wit. Last year I used an example of resilience by making an analogy with Newtonian fluids. If you didn't recall what they are, non-Newtonian fluids are the ones that seem liquid when non-disturbed but turn to solids when you hit them. They return to the fluid state as soon as you stop hitting them.

Last year, I analyzed how fantastic it is to see how they seem to defy all physics laws. You might think they don't obey what is expected or ruled. My comparison is NOT an invitation to break the rules of nature, but to keep yourself fluid and adaptable to the continuous changes and hits you will probably face from now on.

Change is and will be the only sure thing in your lives, from the transformation in your routines as of now until the very last day of your existence.

Everything changed by that monster we named “The pandemic,” but she was also our best teacher. My dear seniors, be always ready to face the fact that your plans are plans, no realities, no certainties, just plans. So be prepared to use your resilience reserve for the unpredictable outcome of every decision you make, for they won't be what you expect, but what the circumstances decide.
